Wireless Wall Dimmer Switch II

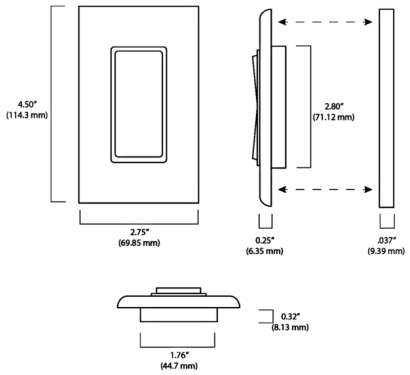

By Moooi

Description

With the Wireless Wall Dimmer II, you'll have full control over your Moooi lighting with one touch. There's no need to change your home's wiring. The Wireless Wall Switch is comprised of two components -- a wall dimmer and radio device (already paired) to put in the canopy of your Moooi fixture. The wall dimmer communicates via Bluetooth with the radio device in the light's canopy. The Wireless Wall Switch can be integrated with your existing wall switches and it charges itself, so there's no need for electricity. Features full range smooth dimming without flickering. Includes wall plate. Note:The Moooi Wireless Wall Switch II is not designed to function as a traditional 3-way switch. It is a wireless wall switch that communicates with the fixture's driver to control the light.The Wireless Wall Dimmer II is currently compatible with these Moooi fixtures:NomNom LightStarfall LightHeracleum III FamilyGravity ChandelierRaimond II R43, R61, R89, Zafu and DomeTubelight Linear Pendant
