Haiku Universal Mount Outdoor Ceiling Fan with Downlight

By Big Ass Fans

Description

The Haiku Gen 4 Universal Mount Outdoor Ceiling Fan with Downlight is an expertly crafted blend of form and function, stylish in design with premium finishes and a fleet of smart, advanced features perfect for making the most of your covered outdoor setting. Whisper-quiet, energy-efficient airflow is delivered by a permanent-magnet brushless DC/EC motor and precision-balanced airfoils (blades) made of aircraft-grade aluminum. A color temperature shifting LED downlight provides illumination with a range of 2700-4000K, and it dims 1-100% with 16 dimming settings. A bottom cover is included for use without the light. Built-in SenseME technology automates efficiency using on-board sensors. The fan can turn on or off based on room occupancy detected by a motion sensor, and temperature and humidity sensors detect environmental changes to automatically fine-tune fan operation and maintain your comfort level. The included bluetooth remote control enables fan speed adjustment (7 speeds), motor on/off, light on/off and dimming, and motion and environment sensing on/off. It can be handheld, placed in a magnetic wall holder, or fixed in a wall mount. The mount and holder are included. An optional IR control is sold separately. The free Haiku by BAF app offers additional control functions including scheduling, grouping fans, enabling Whoosh (breeze) or Sleep modes, and changing the downlight color temperature. Haiku also integrates with smart home systems to enable voice control including Amazon Alexa, Google Assistant, and ecobee. With its world-class airflow and modern features, the Haiku smart fan is an excellent solution for refreshing your space. Optional downrods and other accessories are sold separately. 7 inch downrods are not compatible with 84 inch fans.

Specifications

BLADE COLOR N/A
BODY FINISH Satin Nickel / Caramel Aluminum
WATTAGE 26.1W
DIMMER Included
DIMENSIONS 52"W x 29.5"H
INTEGRATED LED MODULE 1 x LED/26.1W/120V LED
