Luminator Floor Lamp

By FLOS

Description

Experience the iconic simplicity and pioneering design of the Flos Luminator Floor Lamp, a true masterpiece of minimal form by Achille Castiglioni. This lamp reduces lighting to its essential elements: a sturdy tripod base crafted from painted galvanized metal legs supports a slender painted iron stem. At its apex, a dedicated reflector bulb casts light upward, providing indirect ambient illumination that bathes the room in a soft, diffused glow. Whether you choose a neutral or a vibrant bright color finish for the stem, the Luminator is designed to catch the eye with its unique bare-bones style and uncluttered aesthetic. Its genius lies in its ability to create powerful, comfortable light from a form that is almost sculptural in its simplicity. This lamp is a testament to Castiglioni's philosophy of using minimal components to achieve maximum impact, making it a timeless and impactful addition to any contemporary or minimalist interior.

Specifications
