DESCRIPTION

The shape of the Almendra Organic Linear Pendant was inspired by the branches of an almond tree. In addition to its nature-inspired form, the fixture also incorporates sustainable materials by utilizing polycarbonate made from byproducts of papermaking. The leaf-shaped shades house LED light sources and can be rotated in 60 degree increments to provide up or down lighting. Almendra's versatile design will illuminate any space with contemporary elegance. The canopy is available in a matte White finish or with Primer so that it can be field painted. Canopy mounts to standard US junction box. 120V dimmable with ELV or TRIAC dimmer. 120-277V dimmable with 0-10V dimmer.
