Almendra Organic Linear Pendant

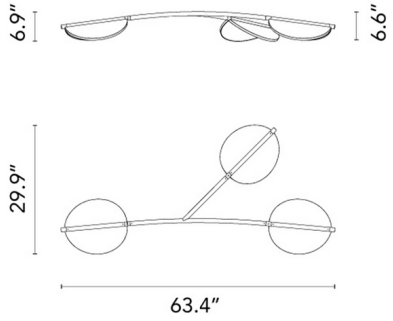

By FLOS

Description

Embrace the harmonious blend of nature-inspired design and sustainable innovation with the Flos Almendra Organic Linear Pendant. The graceful shape of this fixture draws its inspiration directly from the delicate branches of an almond tree, bringing an organic fluidity to your interior. Beyond its aesthetic appeal, the Almendra also champions environmental responsibility, utilizing polycarbonate made from byproducts of papermaking, a conscious step towards more sustainable materials.The pendant features beautifully sculpted, leaf-shaped shades that cleverly house integrated LED light sources. These shades offer remarkable versatility, capable of being rotated in 60-degree increments to provide either focused uplighting or direct downlighting, allowing you to tailor the illumination to your needs and mood. Almendra's adaptable design ensures it will illuminate any space with contemporary elegance. The canopy is available in a clean matte White finish or with a Primer option, allowing it to be seamlessly field painted to match your ceiling. Designed to mount to a standard US junction box, this pendant is dimmable with an ELV or TRIAC dimmer at 120V, and with a 0-10V dimmer for 120-277V systems, offering comprehensive control over its luminous output.
