### DESCRIPTION

The Freedom Stool features a triangular cushion that ensures hips are supported and tailbone pressure is reduced. The design of the cushion allows for multiple sitting positions, and lowers the thighs and increases circulation throughout the lower body. The result is a fun, versatile, and ergonomic stool that encourages movement while remaining comfortable and promoting long-term wellbeing in the workspace. Choose between Saddle seat option or a smaller, more compact seat option, Pony. Note: Pony stool not available in Lotus Shale fabric. Saddle stool not available in Black Corde stretch fabric.
