Pantheum Wall Sconce

By Lee Broom

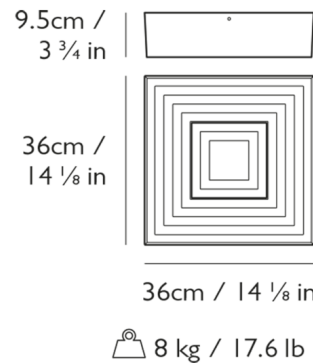

Description

The Pantheum Wall Sconce is inspired by the texture of the domed ceiling of Rome's famous Pantheon. Pantheum's tiered construction is crafted from Jemsonite, a recyclable, non-solvent alternative to fiberglass and polyester resin. The fixture's frame is complemented with a tiered opal acrylic diffuser that softly disperses light. Pantheum can be installed as a single fixture or in a group of multiple fixtures to create a stunning constellation. Dimmable with TRIAC/Leading edge dimming. Includes mounting plate to fit flush to wall.

Shown in jesmonite / opal

Specifications
