Lumio

**DESCRIPTION**

The Teno Illuminated Bluetooth Speaker is a compact and a beautifully imperfect sculpture that fits nicely in the palm of your hands or your living space. Break open its two halves, by running your fingers over its natural sand surface, to reveal a powerful speaker and a warm light. Inspired by the Japanese art of kintsugi, Teno blends intuitive technology with the refinement of a handcrafted object. Teno features a state-of-the-art bluetooth 5.0 chip and a 20W class-D amplifier to deliver the most powerful sound, while keeping distortions to an absolute minimum. Its impressive 45mm full-range driver delivers deep bass and crystal-clear treble. The speaker includes a discreet custom USB-C charging cable, and lasts up to 8 hours on a full charge.

*Shown in: Black*
