Artifact Table Lamp By Nova of California

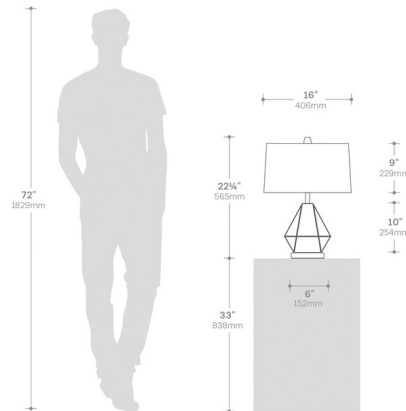

Description

The Artifact Table Lamp is created with glimmering mica and is as useful as it is gorgeous. The center of the lamp contains a hidden nightlight that when illuminated creates a warm glow behind layers of shimmering amber mica. The top section of the lamp is capped off with a white linen shade. Equipped with a rotary switch, the designer modern table lamp can be turned on at the shade, at the base, or both on or both off. The body of the lamp includes a nightlight with E12 light source.

Shown in redwood / amber / white
