Moraga Table Lamp

By Nova of California

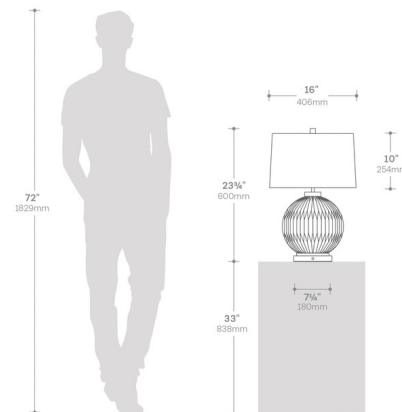

Description

The Moraga Table Lamp is an elegant lamp with a hidden feature. The porcelain cutwork body of the lamp includes an E12 light source that can be used for a nightlight or soft ambient light. The pattern in the orb shaped body of the lamp allows light to increase and reduce based on the density of the porcelain which increases the intensity of the pattern when the light is on. The lamp features walnut and brass accents, while the shade is crafted of white linen. Rotary on/off switch on socket; turn on the shade light, the body light, both lights on or both lights off.

Shown in brass / white
