Santa Clara Table Lamp

By Nova of California

Description

Discreetly featuring an internal nightlight in the base of the onion shaped porcelain body, the Santa Clara Table Lamp offers multiple options for lighting a room. The porcelain cutwork body of the lamp includes an E12 light source that can be used for a nightlight or soft ambient light. The pattern etched into the porcelain creates a play of light and dark from the density of the material. The white linen shade compliments the pearly white porcelain body. Rotary on/off switch on socket; turn on the shade light, the body light, both lights on or both lights off.

Shown in brass / white
