Atmosfera Coffee Table

By Gubi

Description

The Atmosfera Coffee Table features a simple aesthetic that references classic designs with a casual feel suitable for both indoor and outdoor use. The tabletop is made from rectangular slats of solid teak as well as the legs, which are connected with a miter joint to form an L-shape at each corner. The top of the legs extend slightly above the tabletop and are rounded to contrast the geometric right angles of the rest of the table. Note: Teak wood will age and gain a silvery-grey patina over time when exposed to sunlight and weather. Minor splits and cracks, particularly in the end grain of the wood, may develop over time. This is a naturally occurring process and is not a fault in the wood.
