F-Chair Outdoor Lounge Chair

By Gubi

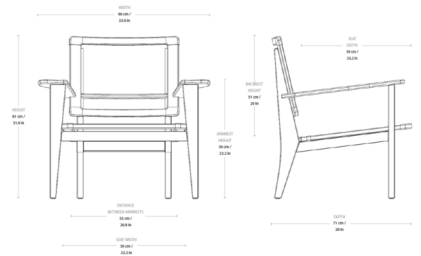

Description

The F-Chair Outdoor Lounge Chair offers a simple, functional design that will provide a stylish accent to any outdoor seating area. Featuring an archetypal lounge chair design with tapered legs and wide arms, the F-Chair is ergonomically designed to comfortably support the user. The frame is constructed with traditional joinery from durable teak wood. Teak's naturally high oil content allows it to withstand outdoor conditions without additional treatment and causes the wood to develop a silvery patina over time. The seat and back are wrapped with high-density polyethylene fiber that mimics the appearance of natural wicker. The fiber is suitable for all-weather use and lends a nautical accent to the piece.

Shown in natural teak / faux wicker
