Station Wall Clock

By Arne Jacobsen

Description

Arne Jacobsen's Station Wall Clock was originally designed for the electrical manufacturer LK in 1941. The original design for this iconic classic has now been recreated, and transforms an anonymous white wall into a distinctive design statement. The graphic design is emphasized by a top ring in black aluminium. Available in multiple sizes. A great gift idea that can be handed down through the generations. Required 1 AA battery.

Shown in black / white
