## Mineral Dining Table By Ferm Living

## Description

The Mineral Dining Table is ideal for small living and exudes understated exclusivity. Made with Bianco Curia marble, the distinct broken-edge detail of the tabletop has been made by hand with a chisel, making each table unique. The marble surface has been given a delicate treatment that gives it a subtle shine while making it more resistant to everyday use. Completed with a discrete foot, the marble tabletop remains the main focal point of this timeless design.

Shown in black / bianco curia marble
