Commercial J-Box Color/Wattage-Select Non-IC Downlight By OKT Lighting

Description

The Commercial J-Box Color/Wattage-Select Downlight offers high-performance LED illumination suitable for offices, retail environments and other commercial spaces. When combined with a reflector trim (sold separately), it can be used as a downlight or wall wash in remodel applications, or the optional new construction frame can be added for use in new construction applications. The integrated junction box, which contains the driver, eliminates the need for a can or traditional recessed housing, simplifying installation. Color temperature (CCT) can be set to 3000K, 3500K, or 4000K. Wattage can be set to 27W, 34W, or 40W. Note: The reflector trims pictured are not included. A complete fixture requires a light and a 4, 6, 8 or 10 inch reflector trim, sold separately.

Specifications

COLOR
