T-Grid Linear Light

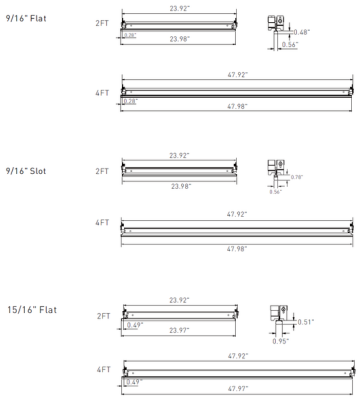

By OKT Lighting

Description

The T-Grid Linear Light is a simple, easy-to-install grid lighting system. Compatible with 9/16 inch and 15/16 T-grid ceiling systems, this stylish linear fixture can simply replace cross tees where lighting is desired, seamlessly integrating into the ceiling grid. LED light shines through a three-sided milky diffuser with a 120 degree beam angle. This fixture provides a flexible ambient lighting solution for commercial and institutional environments such as offices, classrooms, retail settings and public spaces. Three options are available based on grid type compatibility: 9/16 inch Flat, 9/16 inch Slot and 15/16 inch Flat. Note: Up to three 2 foot lights can be connected in parallel to one 30W driver, and up to three 4 foot lights can be connected in parallel to one 60W driver. The maximum distance from fixture to driver is 8 feet with a 24AWG cable. Note: A required remote driver and optional accessories sold separately.

Shown in anodized silver / milky
