Ghost Linear Multi-Light Pendant By Resident Lighting

Description

The Ghost Linear Pendant offers a sleek, minimalist design with an elegant expression. A rectangular canopy suspends a row of cylindrical pendants that will create a striking display in any space. Each pendant houses an integrated LED light source that shines downward through a pair of borosilicate glass cylinders and illuminates the rims to create the illusion of rings floating in air. Note: Includes a remote 24V XLG constant current driver which must be placed in a remote accessible location near the fixture.

Shown in matte black / clear
