Spitfire DC Ceiling Fan By Fanimation

Description

The quiet, energy-efficient Spitfire DC Ceiling Fan delivers powerful airflow to freshen up your indoor or covered outdoor space. With a streamlined profile and wide selection of attractive finishes for the motor and blades, it integrates well into any room design. The fan is available with or without an integrated LED light kit. The light is diffused through a fresnel lens or frosted polycarbonate lens (both included), providing ambient illumination. CCT (color temperature) can be adjusted to 3000K, 4000K, or 5000K using the remote control or smart device app. A WiFi hand-held remote control (TR305) is included and can turn the motor on/off, set 16 speeds, forward and reverse, breeze mode, and timers. If the fan has a light, the remote turns it on/off, dims, and adjusts the color temperature. The Spitfire DC can also be controlled through the fanSync WiFi app on your smart device, or through smart home systems including Amazon Echo/Alexa, Google Home, Nest and ecobee for a truly modern experience. Optional accessories are sold separately. NOTE: Limited options available in Galvanized and Matte Greige finishes.

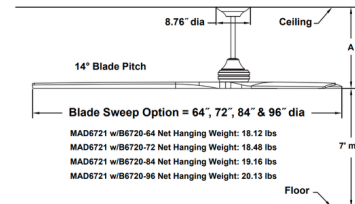

Specifications

BLADE COLOR	Brushed Nickel
