Triarc Pendant By Bert Frank

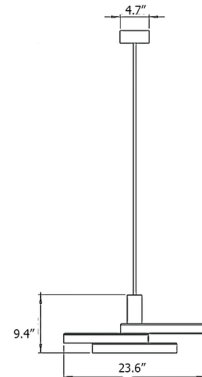

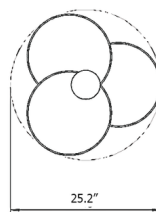

Description

The Triarc Pendant is composed of three overlapping brass discs suspended from a single drop rod. The bottom of each disc is covered with an Opal or Black acrylic diffuser to reduce glare and softly disperse light. Triarc possesses a sculptural presence that will stand out in any interior, especially in a grouping of multiple pendants at various heights. Includes canopy to cover standard US junction box. Note: Overall height to be specified at time of order. Note: UL certification is available upon request for an additional charge. Please contact our sales team for assistance.

Shown in brass / opal
