62 Sideboard

By Gubi

Description

Originally conceived in 1952 by Swedish designer Greta M. Grossman, the 62 Sideboard received its name as it was considered to be ten years ahead of its time. The sideboard is constructed from walnut veneer, glossy black laminate, and powder coated steel, an elegant pairing of materials that emphasizes the desk's geometric form. 62's legs are capped with walnut orbs, a motif that is echoed in the design of the drawers' handles.
