

BRAND

Les Jardins Solar Lighting

DESCRIPTION

The Corsetta Outdoor Solar Floor Lamp features sleek, curved slats elegantly cinched at the center to form a pleasing silhouette. The slats, made of slate grey HPL, are arranged with a teak base and top plate. Use this cordless LED lamp as a stylish, eco-friendly lighting solution for patios, poolside areas, gardens and other outdoor spaces. The lamp is rechargeable through the solar panel or micro-USB charging port. It also has a motion sensor, a dusk to dawn setting, and a smart mode that automatically adjusts brightness based on ambient light and power reserves. A push button on the LED module is used to turn the light on or off, set dimming level, turn the motion sensor on or off, and select operation modes. A solar charge takes 8 hours in optimal conditions and a USB charge takes 7 hours. A full charge lasts for 5-200 hours depending on the dimming level used.

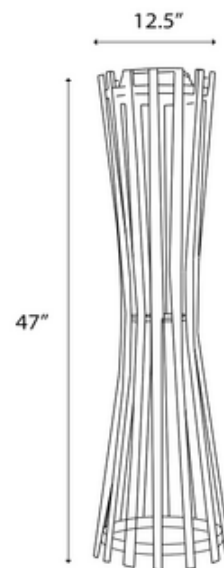

SHADE COLOR	Slate Grey
BODY FINISH	Teak
WATTAGE	3W
DIMMER	Included
DIMENSIONS	12.5"W x 47"H
INTEGRATED LED MODULE
