Malamata Wall Light

By Luceplan

Description

The Malamata Wall Light takes its name from the Hebrew words for up and down in reference to its adjustable diffuser. Features two articulated arms with a spherical counterweight on the lamps's crossbar that can be moved from side to side, causing the opal glass globe diffuser to raise and lower as the bar tilts. Malamata's silhouette is comprised of simple geometric forms for a contemporary look that will also complement more traditional decor styles. Dimmer switch located on cord.
