## Malamata Pendant

By Luceplan

### Description

The Malamata Pendant takes its name from the Hebrew words for up and down in reference to its adjustable diffuser. The spherical counterweight on the pendant's stem can be moved from side to side, causing the opal glass globe diffuser to raise and lower as the pendant tilts. Malamata's silhouette is comprised of simple geometric forms for a contemporary look that will also complement more traditional decor styles.

Shown in matte black / opal
