Ettorino BIG Floor Lamp

By Catellani & Smith

Description

The Ettorino BIG Floor Lamp offers an updated take on the classic design of articulated floor lamps. Ettorino features an adjustable arm that can be raised and lowered and a swiveling cylindrical head to aim light precisely where it is needed for reading and other tasks. The lamp's head houses the main LED light source, as well as an LED uplight with a dichroic lens to create a colorful indirect lighting effect. The lamp's form is composed of simple geometric shapes for a versatile look with a modern expression. A small detail of a dancing figure at the end of the arm completes the look with a charming accent. Dimmer button for main lamp and on/off button for uplight located on lamp's base.
