Ettorino Table Lamp By Catellani & Smith

Description

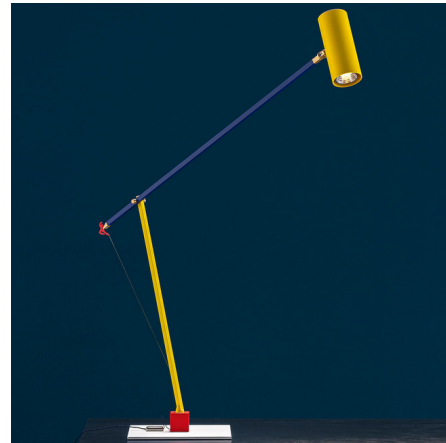

The Ettorino Table Lamp offers an updated take on the classic design of articulated desk lamps. Ettorino features an adjustable arm that can be raised and lowered and a swiveling cylindrical head to aim light precisely where it is needed for reading and other tasks. The lamp's form is composed of simple geometric shapes for a versatile look with a modern expression. A small detail of a dancing figure at the end of the arm completes the look with a charming accent. Dimmer switch located on cord.
