Lucenera Ceiling Light

By Catellani & Smith

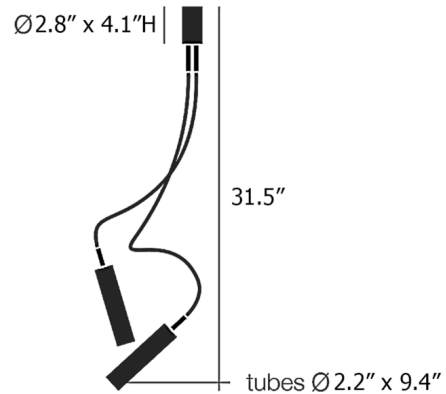

Description

When designing the Lucenera series, Enzo Catellani aimed to move the emphasis off of the fixture and onto the light it produced. To accomplish this goal, Catellani used the simple shape of cylinders mounted onto flexible arms, allowing the light to be aimed precisely where it is needed most. Available in Black or White with nickel details. Includes matching black or white mounting plate to cover standard US junction box.

Shown in black / black

Specifications
