## Lucenera Table Lamp By Catellani & Smith

### Description

When designing the Lucenera series, Enzo Catellani aimed to move the emphasis off of the fixture and onto the light it produced. To accomplish this goal, Catellani used the simple shape of a single cylinder mounted onto a simple post and square base. The angle and intensity of the light beam can be adjusted by sliding the nickel rod protruding from the lamp's head. On/off switch located on lamp's head.
