PostKrisi Pendant

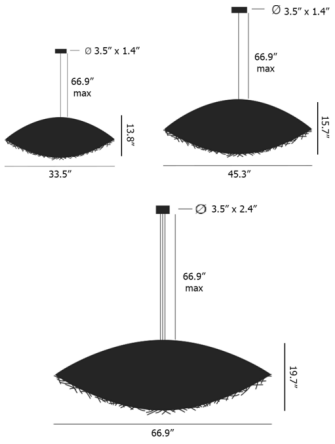

By Catellani & Smith

Description

The PostKrisi collection was Enzo Catellani's first foray into working with fiberglass. While he was initially intrigued by the material's light weight and strength, he was captivated by the shadows cast as it interacts with light. The PostKrisi Pendant features an oblong shape with pointed tips. As light passes by the rough edges of the fiberglass, an irregularly shaped pool of light is cast upon the room.Includes round Nickel mounting plate to cover standard US junction box, round Nickel canopy, and Grey braided fabric cord.

Shown in nickel / white painted fiberglass
