PostKrisi Globe Table Lamp By Catellani & Smith

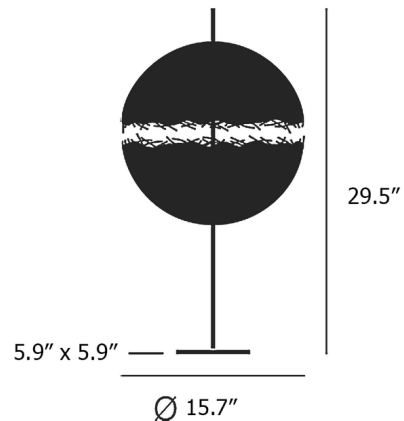

Description

The PostKrisi collection was Enzo Catellani's first foray into working with fiberglass. While he was initially intrigued by the material's light weight and strength, he was captivated by the shadows cast as it interacts with light. The PostKrisi Globe Table Lamp features a pair of fiberglass hemispheres mounted on a central metal rod. As light passes by the rough edges of the fiberglass, an irregularly shaped band of light is cast upon the room. Available in translucent Natural Fiberglass or White Painted Fiberglass with Nickel rod and base or Brass rod and Black base. Dimmer switch located on cord.

Shown in black / brass / natural fiberglass

Specifications
