Stchu-Moon Standing Floor Lamp By Catellani & Smith

Description

The Stchu-Moon Standing Floor Lamp features a slightly twisted, columnar shape lined with a roughly textured, metallic leaf material. When illuminated by the integrated LED light sources, the metallic leaf amplifies the light and appears to take on a glow of its own. In addition to two onboard LEDs, the lamp also includes a candle holder near the top of the lamp to supplement the light sources with a natural flame. Dimmer switch and low voltage driver located on cord.

Shown in iron / gold leaf
