Stchu-Moon Floor Lamp with Wall Reflector By Catellani & Smith

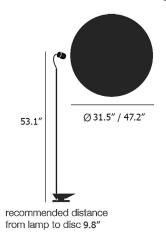

Description

The Stchu Moon Floor Lamp with Wall Reflector offers a unique configuration, featuring a slim floor lamp and large, wall-mounted reflective disc. When light from the floor lamp is aimed at the reflector's textured, metallic leaf surface, the light is reflected outwards into the room to provide illumination. A black iron anvil serves as the base of the floor lamp and provides an intriguing visual accent. Dimmer switch located on cord. Available with Nickel-plated floor lamp and Gold Leaf, Silver Leaf, or Copper Leaf wall reflector.

Shown in nickel / silver leaf
