Angle Hook

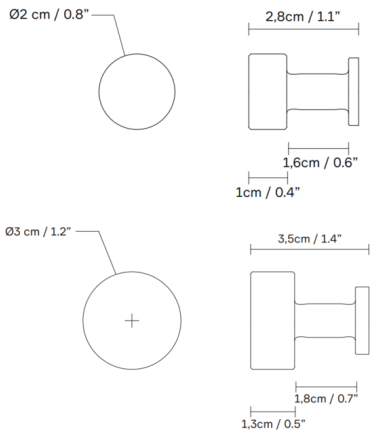

By Form & Refine

Description

The Angle Hook has been created from a single piece of lathe turned solid steel/brass. The grid surface provides a structure that is pleasant to the touch and keeps clothes and towels from slipping off. Depending on your preference you can either let it patinate, so it attains a darker shade, or keep it polished and shiny. The hook is also well-suited as a handle on drawers, cupboards, etc.

Shown in brass
