Angle Foldable Stool

By Form & Refine

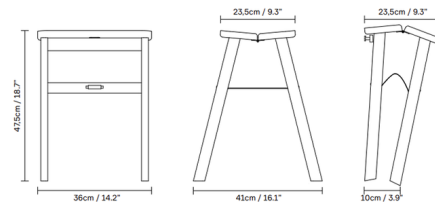

Description

A stool that fits all needs and wants, whether the focus be upon form, functionality, comfort, or durability with the Angle Foldable Stool. The two sides of the seating base are angled 10 degrees towards each other, a unique design feature which facilitates surprising comfort for a stool making this an ideal choice for supplementary seating. The leather band beneath the seat has a supporting brass rod which gives the stool a final touch of detail and a prominent form. In all, a very durable item because of its solid wood and strong side beams.

Shown in natural oak
