Motif Armchair

By Form & Refine

Description

A sophisticated and aesthetically pure and compelling chair, the Motif Armchair's natural webbing is twisted by a 35-millimeter horizontal and 50-millimeter vertical webbing-band, creating an outstanding design feature which fits the chair's dimensions to perfection. This webbing continues on both sides of the seat and backrest so that the design is holistic and complete. The natural webbing makes the chair particularly comfortable and, like the solid oak, provides a durability and quality that allows for long-lasting use. The armrest adds further elegance and comfort to the chair with a widened area to lean on and a natural space to rest one's hands.

Shown in white oak / natural
