Up and Down Outdoor Wall Sconce 12V By Kichler

Description

The compact Up and Down Outdoor Wall Sconce is ideal for landscape or deck lighting. Featuring thick-walled cast brass construction, and an uplight and downlight with flush lenses that prevent water puddling, this fixture withstands harsh outdoor environments including coastal climates. The Centennial Brass finish offers a vintage aesthetic and will patina over time. Note: A transformer is required, sold separately. This fixture is to be used only with a transformer rated a maximum of 300W (25 amps) 15V. The fixture does not mount to a standard junction box.

Shown in centennial brass
