Landscape Adjustable Drop-In LED Flood Light Kit 12V

By Kichler

Description

The Landscape Adjustable Drop-In LED Flood Light offers easy tool-less knuckle adjustment of light direction and color temperature on location to meet your landscape project needs. This set includes the fixture with bi-pin socket base, a 3000K MR16 bulb, ground stake, wire connectors, and an amber lens to achieve a warm white light of approximately 2700K. This fixture features durable cast aluminum construction and clear tempered shock-resistance glass with a high tolerance for thermal expansion and stress. A built-in extended cowl minimizes glare and guides the light. Note: A transformer is required, sold separately. This fixture can be used only with a transformer rated a maximum of 300W (25 amps) 15V.
