Bauhaus Lounge Bench By Kristina Dam

Description

The Lounge Bench is made of weather-resistant powder-coated stainless steel and is suitable for both indoor and outdoor use. A unique. perforated bench design based on a simple geometrical component with a crystal clear character and balanced composition. A durable, sculptural and functional lounge bench to your porch or patio for extra casual seating. Note: The Bauhaus Lounge Bench is made from stainless steel and treated with a powder coating making it rust-resistant and perfect for outdoor use. However, over time, corrosion can happen. Any scratches in the coating will leave the stainless steel exposed and oxidation might happen.
