Bauhaus Dining Chair

By Kristina Dam

Description

The Bauhaus Dining Chair is made of weather-resistant powder-coated stainless steel and is suitable for both indoor and outdoor use. You will notice immediately that the sitting comfort is remarkable and that the Bauhaus Dining chair is a comfortable choice no matter its usage. The unique, perforated design ensures that the chair will last for a long time in your home interior. Note: The Bauhaus Dining Chair is made from stainless steel and treated with a powder coating making it rust-resistant and perfect for outdoor use. However, over time, corrosion can happen. Any scratches in the coating will leave the stainless steel exposed and oxidation might happen.
