Bauhaus Dining Table

By Kristina Dam

Description

A round and circular table with a clean and straightforward design is the Bauhaus Dining Table, made of perforated steel - a trademark design feature of the entire Bauhaus furniture range. The round tabletop made of perforated steel softens the engineered expression and gives the table a transparent and light appearance. A very versatile table made of weather-resistant powder-coated stainless steel. The Bauhaus Dining Table is suitable for both indoor and outdoor use. The unique and simple design ensures that the table will last for a long time in your home interior. Note: The Bauhaus Dining Table is made from stainless steel and treated with a powder coating making it rust-resistant and perfect for outdoor use. However, over time, corrosion can happen. Any scratches in the coating will leave the stainless steel exposed and oxidation might happen.
