Armstrong Linear Chandelier

By Schwung Home

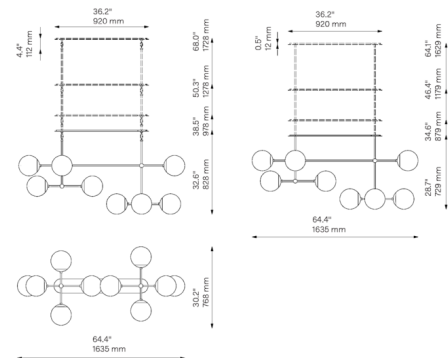

Description

The Armstrong Linear Chandelier features glass globe shades connected by an intersecting network of sleek metal stems. The contrast of the hand blown glass globes curves and the frame's right angles creates a modern, geometric look with a hint of playfulness. Note: Each piece of glass is unique with natural patterns which is part of the appeal of this fixture. As a result, the manufacturer cannot guarantee each fixture will match.

Shown in lacquered burnished brass / marble matte
