To-Tie Table Lamp

By FLOS

Description

Experience the sheer brilliance of design reduced to its absolute essence with the aesthetically striking Flos To-Tie Table Lamp. This extraordinary lamp is a testament to minimalist engineering, meticulously crafted from elements held together by nothing more than mechanical tension alone, completely devoid of screws, glue, or welds. This innovative construction creates a captivating visual lightness and transparency. The core of the To-Tie's illumination is its light source, ingeniously integrated into a sleek anodized aluminum bar. This bar rests gracefully within a clear glass cylindrical shade, allowing the light to diffuse beautifully throughout the space. Control is seamless and intuitive with an on/off switch that includes a 10-100% dimmer conveniently located on the cord. The To-Tie Table Lamp is more than just a light fixture; it's a piece of functional art that celebrates the elegance of simplicity and the power of pure design, perfect for contemporary and minimalist interiors.
