Go Portable Smart Table Lamp

By Philips Hue

Description

The Go Portable Table Lamp is a versatile, battery-powered fixture that can add a pop of color or serve as a mood-setting centerpiece. The integrated LED light source provides tunable white light as well as a range of colors. A rechargeable battery allows the lamp to operate cordlessly from 2.5 to 18 hours depending on the brightness and color setting.Color presets and brightness settings can be adjusted using buttons located on the lamp or controlled via smartphone with the Philips Hue App. Up to 10 light sources in one room can be controlled using Bluetooth. Control of up to 50 fixtures and the full range of smart home settings, including syncing the light to Spotify music, requires the Philips Hue Bridge. Philips Hue with Bluetooth products are only compatible with Amazon Alexa and Google Nest voice assistants. Upgrade to the Hue Bridge (sold separately) for full compatibility with smart home platforms, assistants, and products including: Amazon Alexa, Apple HomeKit, Google Assistant, Microsoft Cortana, IFTT (If This Than That), Razer, Samsung SmartThings, Spotify, and Corsair.
