Gradient Smart Light Strip Extension

By Philips Hue

Description

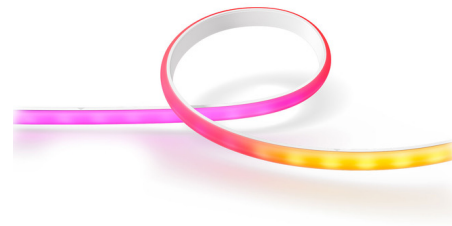

The Gradient Smart Light Strip Extension is an accessory for the Gradient Smart Light Strip Base Kit by Philips Hue that allows the light strip to be extended to greater lengths. The flexible LED strip features tunable white and full color LEDs and the ability to display multiple colors at once along the length of the strip. It can be cut to length, and an adhesive backing allows the strip to be easily installed on a variety of surfaces. Note: The Gradient Smart Light Strip Base Kit is required (sold separately). A home with more than 10 Philips Hue products requires a Philips Hue Bridge (sold separately). The Hue Bridge can support up to 50 lights and smart accessories throughout your entire home. Philips Hue with Bluetooth products are only compatible with Amazon Alexa and Google Nest voice assistants. Upgrade to the Hue Bridge (sold separately) for full compatibility with smart home platforms, assistants, and products including: Amazon Alexa, Apple HomeKit, Google Assistant, Microsoft Cortana, IFTT (If This Than That), Razer, Samsung SmartThings, Spotify, and Corsair.
