Quince Marble Accent Table

By Currey and Company

Description

Created in three sections, the Quince Marble Accent Table is turned like a wood table would be to reveal the personality of the natural stone. The petite white marble accent table has spots and veining in dark and light gray that flow in mysterious patterns along its surface. These attributes of the natural material will vary significantly from table to table. The personable small accent table reads like a sophisticated chess piece that exudes checkmate style.
