

DESIGNER Ian Thornton
BRAND Currey and Company

DESCRIPTION

The Martini Torchiere Table Lamp was designed by Ian Thornton, whose inspiration was a martini glass that he stretched to form a narrower shape. He made the same move with the marble base. The result is a chic table lamp with a cocktail of appealing attributes: the finish on the metal, which brings warmth to the design; and the off-white shantung shade that works in concert with the marble to lighten the composition are but two. Rocker switch on cord.
