## Girault Table Lamp By Currey and Company

## Description

The Girault Table Lamp is carved from beige travertine, the pitting on the surface for which the material is famed bringing a wonderful character to this beige table lamp. The simplicity of the oval forms stacked along its body, the bottom one halved to act as a base, makes this a chameleon of style that will feel at home in any room. Given the bone linen shade is fastened to the lamp with a travertine finial, the antique brass finish on the hardware is the one warm element. 3-way socket switch.

Shown in beige / bone linen
