Benjiro Chandelier By Currey and Company

Description

Made of steel in a Cupertino finish, the Benjiro Chandelier was designed by Ian Thornton. The off-white fabric shades fitted into the inner-most cylinders soften the glow of the bulbs. Inspired by mid-century modern shapes with a bit of a spaceaged twist, Ian tapped into the famed era when wicker and macrame shapes with exploding profiles were all the rage. The dark brown chandelier hangs on aircraft cable to create the illusion it is floating.

Shown in cupertino / off white
