## Shizen Chandelier By Currey and Company

### Description

Hiroshi Koshitaka was inspired by biophilic attributes when he designed the Shizen Chandelier: the meaning of the word Shizen in his native Japanese language is nature. With this flaring profile, he also continues his exploration of rebirth. The steel frame is wrapped in abaca rope in a uniform pattern that is very hard-won, as the result demands many hours of intensive focus. The metal hardware and cone at the bottom of this generously sized rope chandelier are in a Hiroshi gray finish.
