## Splitty Reach Pro Tunable White Desk Lamp By Koncept Lighting

## Description

The Splitty Reach Pro Tunable White Desk Lamp boasts smooth motion and adaptability, inspired by the fluidity of water droplets. The wide drop-shaped LED head casts an even, diffused glow onto any surface, providing both ambient lighting and functional task lighting. Color temperature is tunable from 2700K to 5000K. For ultimate adjustability of light direction, the head and jointed double arm can each pivot up and down and rotate 360 degrees. The touch button on the head is used for on/off and continuous dimming, and a built-in 1.5A USB-C port can charge phones and other devices. A discreet occupancy sensor maximizes energy efficiency, shutting the lamp off after 15 minutes of inactivity. Additional environmentally friendly features are its low power consumption, fully recyclable aluminum and water-based paint. Choose from various mount options including table mounting to secure the lamp in place, a standard table base, or a wireless charger base. Note: The One Piece Desk Clamp is only available for the Silver lamp.
